Alternate-universe "Year of Hell" sequel. The Krenim ship has been destroyed, but *Voyager* isn't much better off. Janeway needs the support of her officers (especially a certain first officer) as she tries to put her ship, and her life, back together.

A Friend in Need page 28
by Valerie DeVries
On a barbarian planet, the Doctor teaches a young boy the meaning of friendship. But will the price of his compassion be Tom Paris's life?

New Resolutions page 91
by Diane Bellomo
Mark's 'Dear John' letter prompts Janeway to ponder why she found it so difficult to commit to him—and later, to Chakotay.

The Gift page 104
by Kathleen Speck
Harry's nettled at the offhanded way Tom's been treating him ever since Tom became involved with B'Elanna. A lovely classmate offers to help him get some of his own back.

Shadows page 123
by Andra Marie Mueller
In the wake of his Vori brainwashing, and his involvement in "the Clash," Chakotay finds himself reliving the ghastly events that drove him to join the Maquis. Janeway is stunned at what he reveals.

A Man Alone page 130
by BEKi
After a month in stasis (in the episode "One"), Tom's nightmares are claustrophobic, morbid, terrifying. Prodded by a worried B'Elanna, Chakotay reluctantly tries to help, only to learn that some memories are best left undisturbed. Another stunning *Voyager* novelette from the Zee Magnees-winning author.
